

BENJAMIN WOOLSTON

OUTGOING
PASSIONATE
TEAM-PLAYER

Personal Statement

I am a highly motivated individual seeking to practically apply my skillset to work that I feel most passionate about. I pride myself in being adaptable, a problem solver, and highly team oriented. My passions lie in using an engineering mindset to practically assist those around me. I can be relied upon to help the team achieve its goals as I am an ambitious individual with strong organisational and multitasking skills with an aptitude for technology.

EXPERIENCE

May. 2022 – Present

Global Trade Control Specialist

Boeing Australia Holdings

- I make my team more efficient by applying technology.
- My teammates come to me with processes they want to get improved and I find them faster automated solutions - I thrive on enabling others to achieve their potential.

Nov. 2022 – Feb. 2023

Network Engineer

Telstra (Fixed 4 Month Contract)

- I managed and coordinated a small team of network engineers to help develop and deliver server upgrades to introduce efficiencies within the SMS team.
- I identified server inefficiencies, then worked with 2 network engineers to → Build test environments → Develop Plan & Documentation → Implement changes across 9 critical servers.

Jun. 2021 – May. 2022

Customer Support Technician

Swyftx

- Took my team to #1 out of 14 teams by building advanced macro's in python to speed up our online customer support abilities.
- I initiated and ran weekly market presentation updates to whole company.

Scott Marriott

0435 510 678
Current manager
Boeing Holdings Australia

James Senenayake

0420 364 313
Personal Friend
Senior Economist - NDIS

PROJECTS

Jan. 2017 – Present

Ecommerce Brand

I started my first business at 15, and now run Cannology.com.au. Over 50 Australian Chemists stock our products. I'm currently Emailing every chemist in Australia, all automated with Python & ChatGPT.

Jan. 2023 – Jun. 2023

Free T-Shirts

I needed more shirts, so I sent an email to 5000 start-up companies asking for a free T-Shirt. I scraped emails/names by abusing google bard with 50 google accounts and then automated emails with Python & ChatGPT. I received 90 T-Shirts, 10 water bottles and 17 booklets!

Feb. 2022 – Apr. 2022

Received Bounty for Windows Exploit

With a friend from university, we worked together to discover a windows 0-day exploit (The highest level exploit on Windows) and received a bug bounty for finding it.
